## Objective

Highly skilled and experienced React developer with a strong background in building efficient and user-friendly web applications. Proficient in React.js, JavaScript, HTML, and CSS, as well as experience with Redux and other technologies. Skilled in agile development methodologies, version control (Git), and unit testing/debugging. Proven track record of delivering high-quality, designed, and well-implemented web applications.

## Experience

### Software Developer

03/02/2023 - Present

IGDS Technologies Pvt. Ltd

- Resolved software bugs, optimized performance, and ensured system stability.
- Expertise in HTML, CSS, JavaScript, React.js, Redux, and React Native for responsive web and mobile apps.
- Developed visually appealing UIs using frameworks like Tailwind CSS, Bootstrap, and Material-UI
- Managed secure data storage with MongoDB, prioritizing confidentiality and integrity
- Proficient in Set up and managed CD/CI pipelines for streamlined development and deployment
- Proficient Git user, actively participated in code reviews.
- Engaged in agile methodologies, consistently meeting project milestones in healthcare and fintech initiatives.

### Software Developer

04/01/2022 - 01/02/2023

Zeksta Technologies

- Specialized in building interactive and responsive web applications using React, Redux, TypeScript, and other modern front-end technologies.
- Proficient in HTML, CSS/CSS3, ES6/Babel, ensuring high-quality code and user experience.
- Experienced in unit testing with tools like ES-Lint and Jest, ensuring robust and error-free applications
- Adept at converting design concepts into interactive HTML UI, translating visual ideas into functional interfaces efficiently.

## Skills

### Development Tools

- Git
- Visual Studio
- Visual Studio Code
- Postman
- Azure DevOps Services

### Front-End Technologies

- HTML
- React.js
- Redux
- React Native

### Back-End Technologies

- Node.js
- Feathers.js

## Programming Languages

- JavaScript

## Databases

- MongoDB

## Projects

### Zeksta Assess (HR Management)

- Worked as a Front-end Developer and developed the UI and functionalities.
- Worked on Nest.js as a Back-end Developer on some modules.
- Worked within Agile frameworks to consistently meet project timelines and deliverable objectives.
- Written unit test cases using Cypress. Technologies used: React, Redux, Cypress, Nest.js, Bootstrap, MongoDB, JavaScript.

### Bid Buddy

- Implemented functionalities like listing the companies and bidding to an offer
- Worked within Agile frameworks to consistently meet project timelines and deliverable objectives.
- Written unit test cases using Cypress. Technologies used: React, Redux, Cypress, Nest.js, Bootstrap, MongoDB, JavaScript

### StackDocket Website

- Responsible for developing various functionalities, including the login module and user listing.
- The project utilized React, Redux, Bootstrap, JavaScript, MySQL, and Feathers.js technologies.

### StackDocket Mobile App

- Served as a React Native developer. My primary responsibilities included developing the user interface and implementing various functionalities.
- I worked on modules such as login, calendar, and case listing.

### CLHF (Healthcare)

- My responsibilities included working on the dashboard, login functionality, push notifications, task management, and document generation.
- The project was built using React, Redux, Bootstrap, JavaScript, MySQL, and Feathers.js technologies
- Coordinated the releases of multiple developers and ensuring successful releases to Google Cloud Platform (GCP).

### Bhailog

- Responsible for developing both the user interface (UI) and the functionalities of the app.
- Worked on setting up the project from scratch and implemented various modules, including login with OTP, job listing, and applying for jobs.
